Dear Mr. President:

On my return from England at Easter time I received your two letters of March. Before leaving in England I had happened to read in the Varsity that Mr. Tennis had been appointed in next year. I have sat down several times to write you since, but have always torn up what I had written because of a certain sense of resentment that I had not been informed as to the plans and purposes of the Association. It was in an attempt to get something definite that on the advise of a friend whom I respect highly here in ~~my~~ our work in Havre, I put off my last letter to you, re returning in September.

It would almost appear now that the War will not be over by that time. When I wrote, it was not quite so certain. I could not think of leaving in Canada until the War is over, whenever that may be. I am ~~now~~ considering the necessity of

my taking up a commission now that Conscription seems the order of the day, although of course Conscription does not affect me as a Canadian citizen. I am also in great hopes of being appointed as a Canadian Ymca Secretary with one of the Contingents. I have been in correspondence with C.W. Bishop about it. If a Battalion recruits from the University, I am sure I am most entitled to act in any such capacity for it. The question of salary does not come in at all, if you should think of taking up the matter with any of the military authorities

Were it not that our work was occasioned by War, it would be one of the finest things to which we can put our hand. Opportunities for valuable work are immense and the Association is seizing every chance to be of service.

I hope the delay in answering has caused no harm. I am sorry I can not be more definite as to my return. The Association must make whatever plans it sees fit.

Yours very Sincerely
C McCarrie
